ICPE 2024

15th ACM/SPEC International Conference on Performance Engineering

South Kensington, London, United Kingdom, 7-11 May 2024

About the Conference

The ACM/SPEC International Conference on Performance Engineering (ICPE, https://icpe.spec.org/) integrates the theory and practice of performance engineering by bringing together researchers and industry practitioners to share their experiences, discuss challenges, and report state-of-the-art and in-progress research on performance engineering of software and hardware systems, performance measurement, modeling, benchmark design, and run-time performance management. The emphasis on cooperation between industry and academia is reflected in the conference accepting not only research papers, but also industrial papers, works in progress and demo submissions. ACM/SPEC ICPE is sponsored by ACM SIGMETRICS, ACM SIGSOFT, and the Standard Performance Evaluation Corporation (SPEC), and is co-located with the regular SPEC group meetings, where work on the latest industry standard benchmarks is coordinated.

Corporate Support Opportunities

The ACM/SPEC ICPE 2024 conference – which will be held in South Kensington, London, UK, 7-11 May 2024 – welcomes corporate support. With over 100 international participants from academia as well as industry expected, ICPE 2024 is an ideal venue for raising awareness of relevant products and services, networking with potential research collaborators, academics, students and potential hires, while being exposed to new ideas that push the state of the art. If you are interested in supporting ACM/SPEC ICPE 2024 through sponsorship or you have any further questions please do not hesitate to contact the General Chairs, William Knottenbelt (w.knottenbelt@imperial.ac.uk) and Simonetta Balsamo (balsamo@unive.it).
